How can the much older and larger Sun City need \$9 million for improvements while the much newer and smaller Sun City West needs \$12 million.

The proposed raise in rates for water in Sun City West is unacceptable. We are in the majority living on Social Security fixed incomes, The docket number WS-01303A-06-0491 should be attached to my irate yet pleading request to lower that rate. Please see to it that this is further discussed with all involved to remedy this unfair raise.
